Class Highlights

The students in Room 19 have worked hard on the usual subjects, but we've also done many extra activities. We wrote to pen pals in Ohio, enjoyed working on the computer, and did many art projects, including painting our shoe. We were all active in music by either singing or playing a band instrument. P.E. was one of our favorite activities, whether it was games with Mr. Seminoff or a good game of kickball or football with our classmates. Even

rainy days were fun with silent ball or board games. Activities are great, but people are important to us. We all enjoyed having Mr. Davis as our student teacher.
